

My Ikigai – Personal Example

What I love ■

Technology, computers, problem-solving, web and software development.

What I am good at ■

Troubleshooting, virtual machines, web development (Django, Next.js), system understanding.

What the world needs ■

Reliable web applications, problem-solvers, technical solutions.

What I can be paid for ■

Web development, IT support, freelance technical projects.

My Ikigai ■

Using my technical curiosity and problem-solving skills to build and maintain useful web solutions while continuously learning.
